

OWNER'S REPLACEMENT PARTS CATALOG

REPLACEMENT PART ORDERING INFORMATION

Use only manufacturer's authorized or approved replacement parts. The letter placed on the end of the part number denotes the type of finish for that part—C for chrome, E for painted, Z for zinc, and PA for purchased assembly. It is important you include this when ordering a part. Do not use attachments or accessories not specifically recommended for this unit. In order to obtain proper replacement parts you must supply the model number of your mower (see nameplate).

Replacement parts, with the exception of the engine, transmission, or transaxle parts, may be obtained from the store where the unit was purchased, a service shop recommended by the store, or authorized service shop listed in the yellow pages of the telephone directory. In Europe, replacement parts may be obtained from the store where the unit was purchased.

If you are unable to obtain parts or service in the manner outlined above, contact the Central Parts Distributor for your area (listed in back) or write to the Factory Customer Service: Outdoor Power Equipment, P.O. Box 268, Brentwood, Tennessee 37027. Collect telephone calls will not be accepted.

Briggs and Stratton engine parts, Tecumseh engine and transaxle parts, and J.B. Foote transmission parts are available from the authorized repair stations listed in the yellow pages of the telephone directory or by following the procedures given on the individual parts warranty.

When ordering parts the following information is required: (1) The Model Number; (2) Part Number; (3) Description; (4) Quantity.

OWNER'S INFORMATION

Record the following information about your mower so that you will be able to provide it when ordering parts or in case of loss or theft.
